SKINMEDICA®

# HYALURONIC ACID (HA) IN THE SKIN

## TOPICAL HA

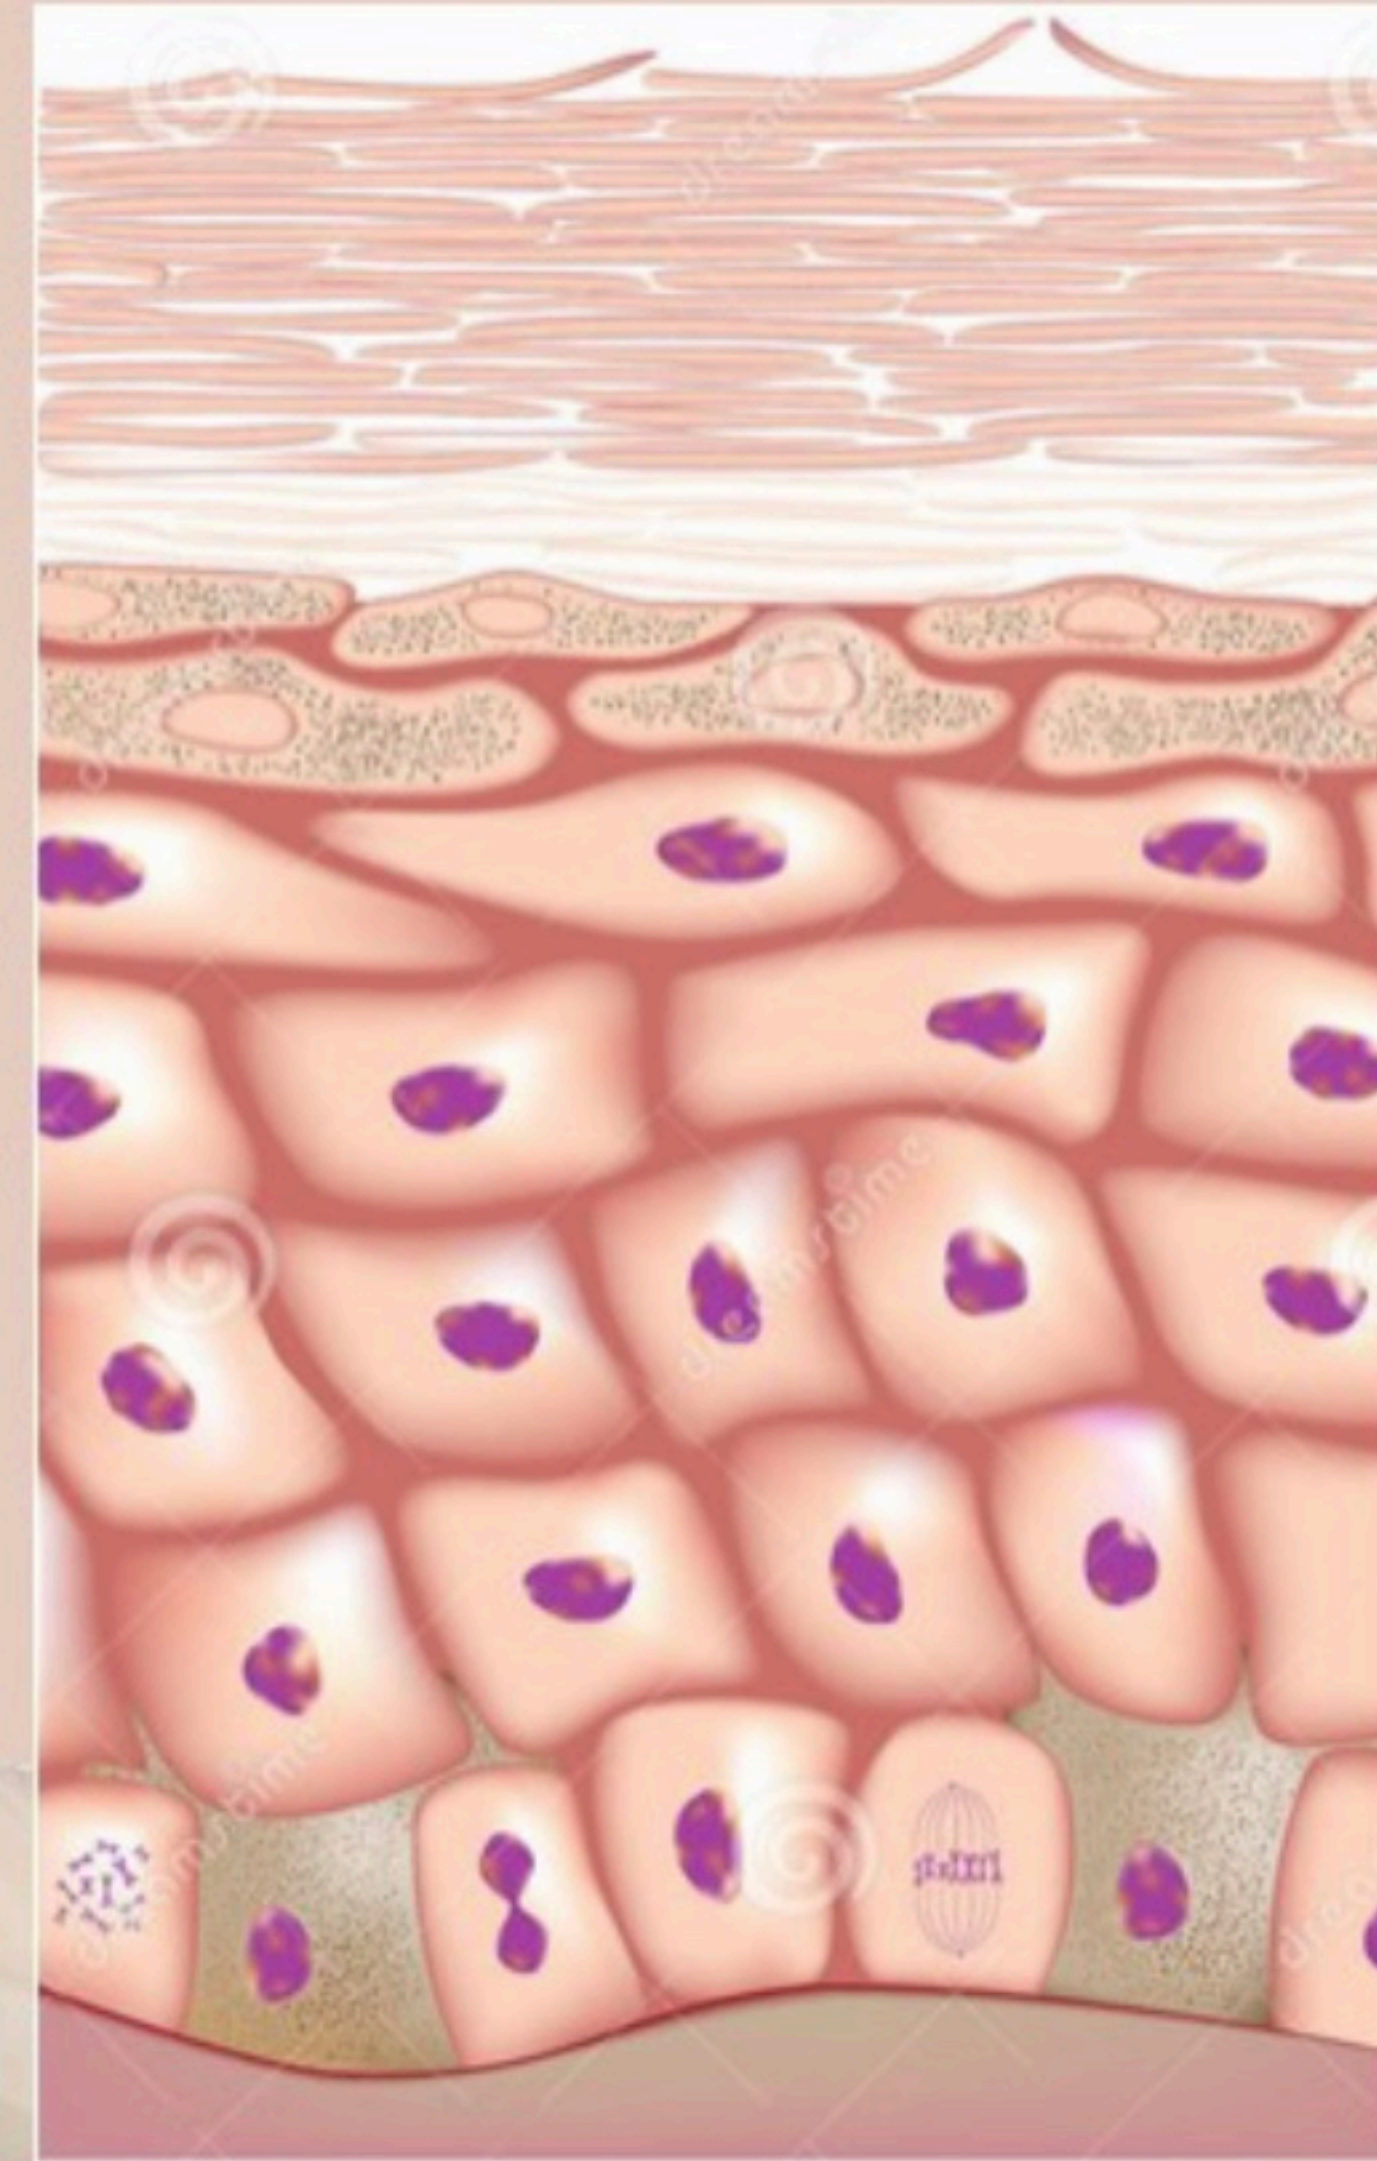

- No penetration beyond stratum corneum
- Rapid degradation
- Short term, superficial hydration

## INJECTABLE HA

- Restore HA in the dermis

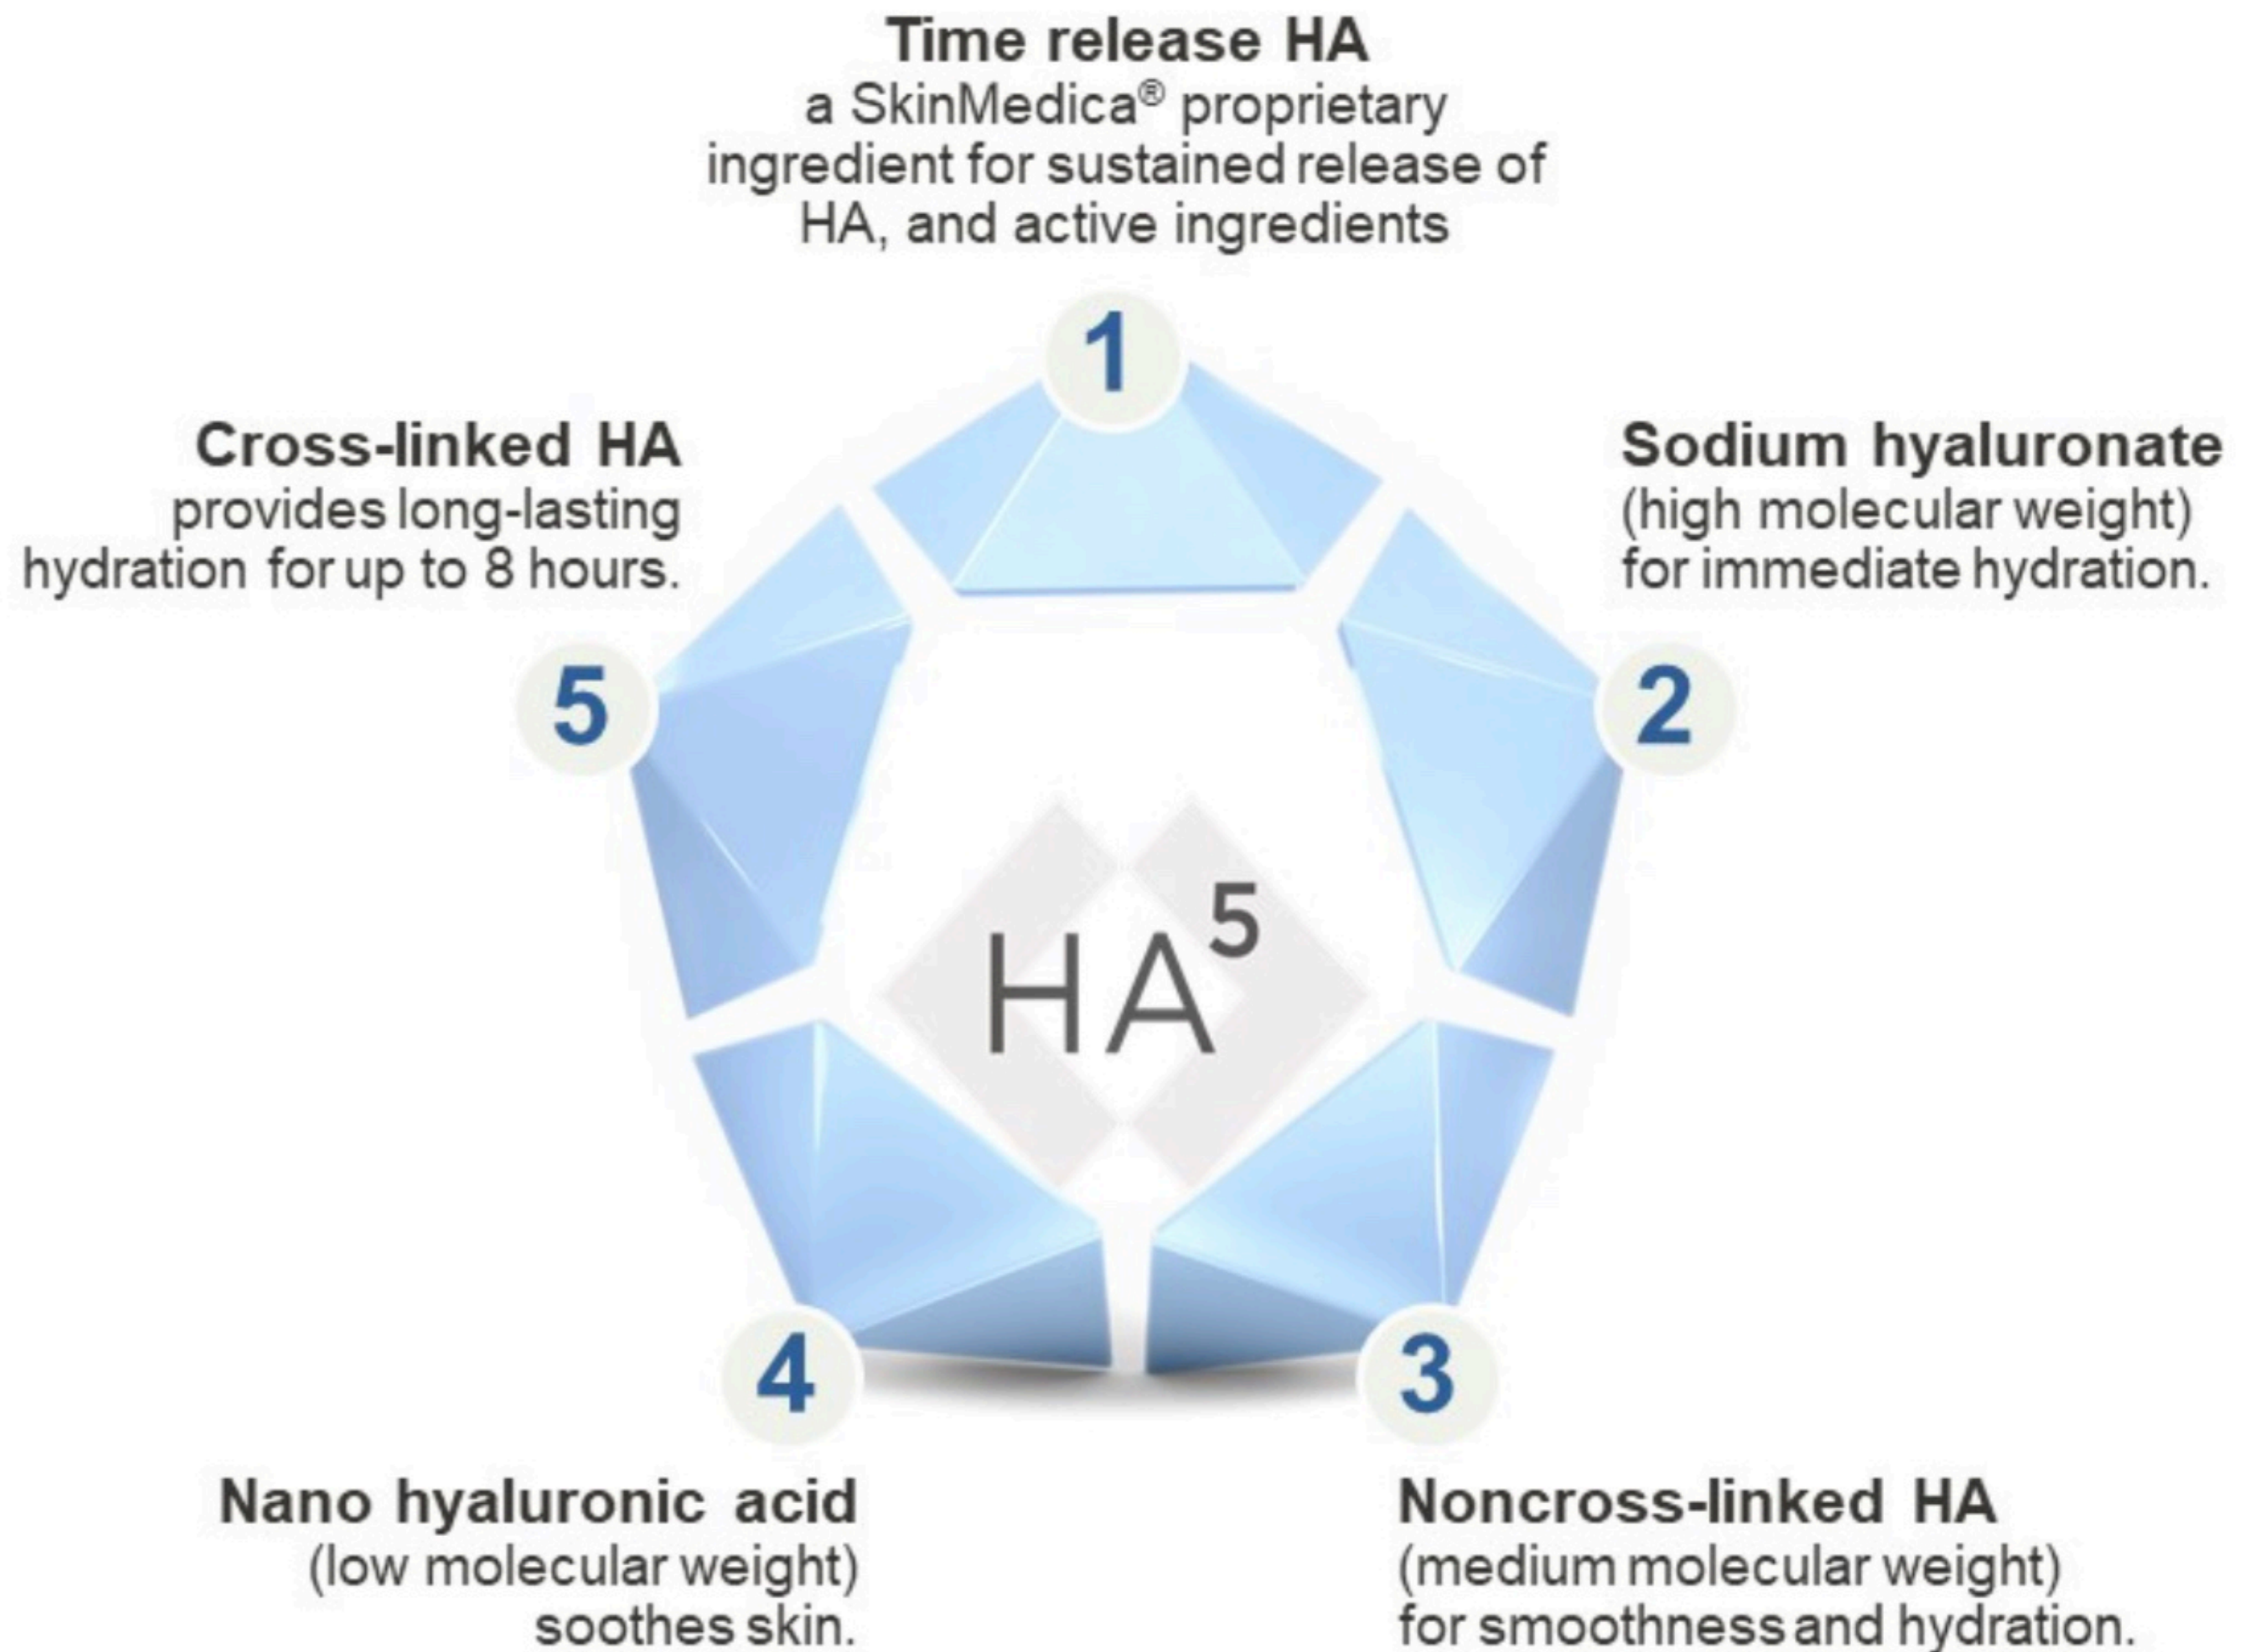

## EPIDERMAL HA

KEY INGREDIENTS:  
**SHORT-TERM  
BENEFITS**

A proprietary mix of 5 HA forms that smooth the skin, thereby decreasing the appearance of fine lines and wrinkles. The blend of molecular-weight polymers provide the optimal formula consistency.

SKINMEDICA®

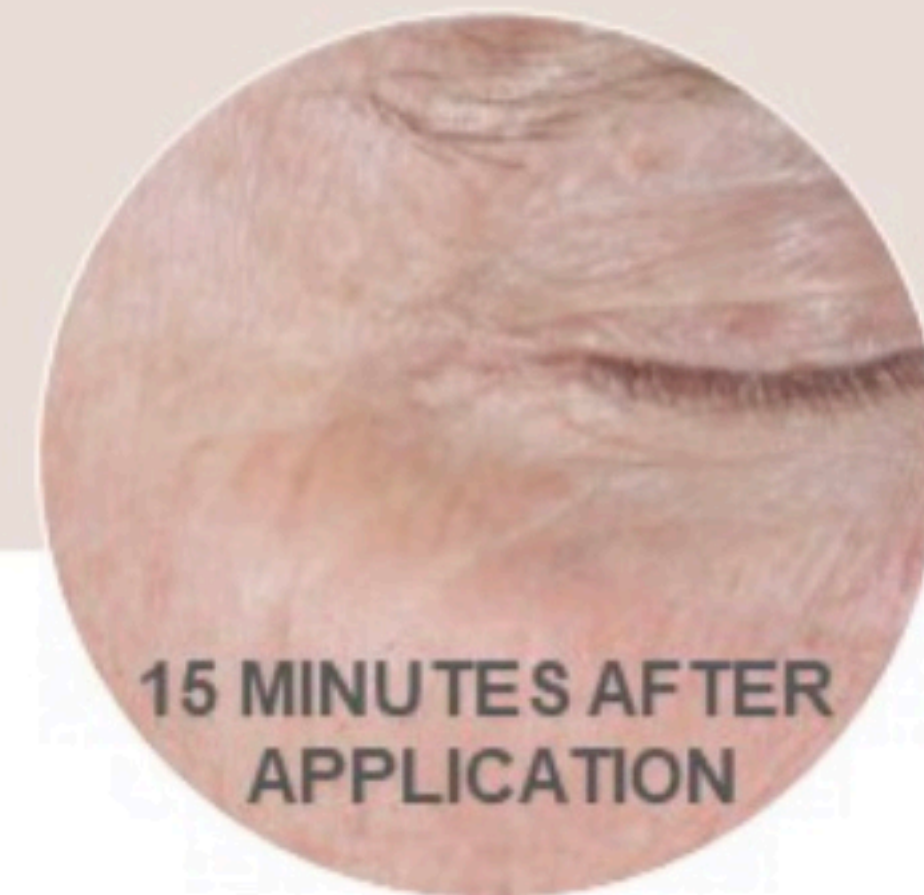

# BEFORE AND AFTER—FINE LINES AND WRINKLES

Male, Age 63, Subject 008, Parallel-Polarized Lighting

15 minutes after HA<sup>5</sup>® application  
(HA<sup>5</sup>® was left on subject's face)

# KEY INGREDIENTS RECAP: LONG-TERM BENEFITS

VITISENSCE™ is a SkinMedica® exclusive technology that harnesses potent antioxidants found in Vitis flower stem cell and algae extracts to support skin's ability to replenish its own hyaluronic acid for epidermal health.

SKINMEDICA®

WITH

VITISENSCE™

TECHNOLOGY

### VITIS FLOWER STEM CELL EXTRACT

Proprietary, potent antioxidant.

### PEPTIDE COMPLEX

Supports rejuvenation and hydration.

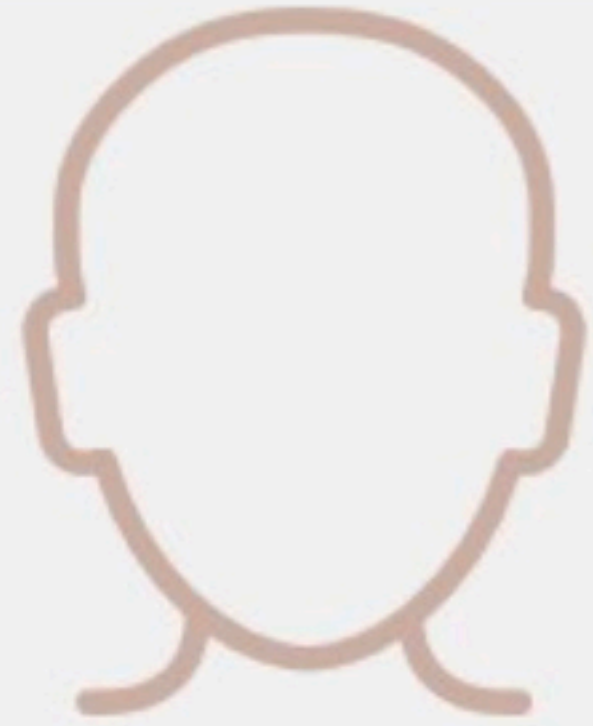

### POLYSACCHARIDES FROM FRENCH POLYNESIA
